G  
What would you like to do  
C  
I don't care, how 'bout you  
G A7 D  
Feel free to mention what you're leaning to  
G  
I'm tired of waiting  
C  
Anticipating  
G A7 D7 G  
Let's check again, maybe our ship's come in  
G C  
No more cloudy days . . . no more dizzy daze  
G A7 D  
No more matter on how long it's been  
G C  
That day will be forever, not all, but all together  
G A7 D7 G  
End it willin' when our ship comes in

Well, you hear it comes tomorrow  
Another day to borrow  
You'll see that ship again right where it's always been  
No need to hurry faster  
You might sail right on past her  
The end when you begin to see our ship come in

Chorus  
Break - (verse and chorus structure)

When would you like to go  
Anytime's all right, you know  
But now's the only time I know to sail away  
I'm tired of waitin ... anticipating  
Let's check again, maybe our ship's come in

Chorus  
Yup, end it willin' when our ship comes in . . . (Outro tag)
