

Key: G

**Angels Around Us**  
(c) 1997 Tupelo Kenyon

Story, WY  
10/16/95

Am                    D                    Bm                    C                    Em7                    Am

Not exactly seeing clearly . . . and not sure what I'm hearing

Am7/G                    G D                    Dsus4 D

But one thing's for certain, I'll continue to listen

Am                    D                    Bm                    C                    Em7                    Am

Like a whispered feeling that sings . . . waiting patiently in the wings

Am7/G                    G D                    Dsus4 D

Like the dawn of recognition of what I've been missin'

A9                    Am7 D                    A9                    Am7 D                    A9                    Am7 D

There are angels around us . . . There are angels around us . . . There are angels around us

G D                    G D                    G D G Gsus4 G D

I can hear them smile . . . I can hear them smile . . . I can hear them smile

Larger than life, but just a pinpoint of light, right here at hand but far away in the night

Can't put my finger on something so slow

Quick as an arrow, soft as a flower, quivers with love, trembles hard with power

You think you believe it, but you really wanna know

That (Chorus)

Em                    G                    Fmaj7                    Cmaj7                    C

All shapes and sizes, just like you thought and clever disguises

Fmaj7                    Am7 D9                    G Gsus4 G                    G/Gb

Young and old, bold guardians . . . sages of the ages

Em                    G                    Fmaj7                    Cmaj7                    C

Wave it away, say believe it when I see it, out of your mind, can't even conceive it

Fmaj7                    Am7                    D9                    D                    Gsus4G

But maybe, before you can see it, you have to believe it . . . . you better believe it

Still (Chorus) - key change:

Em                    Em7 A                    Em                    Em7                    A                    Em                    Em7 A

There are angels around us . . . There are angels around us . . . There are angels around us

D A                    D A                    D A                    D D6

I can hear them smile . . . I can hear them smile . . . I can hear them smile
